### The Greatest Selection Of Herd Bulls To Be Offered Any Place

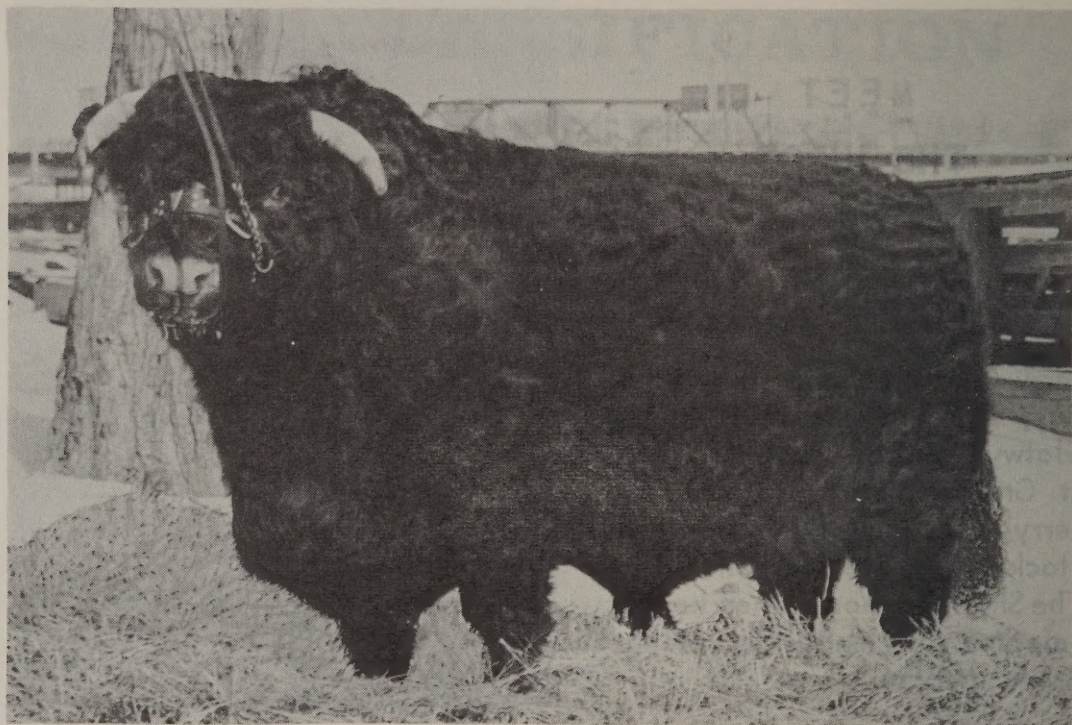

At no other place in America can a buyer have the privilege of selecting from well over 200 Shorthorn and Polled Shorthorn bulls from the nation's finest herds, all located together under one roof and selling in two days' time. This 1960 offering is without a doubt the greatest assembly of bulls ever presented at one of these Omaha sales. There are State Fair champions and 1st prize winners, bulls that have not been pampered but are well grown out and developed for heavy service. All are from top herds in six states, and individual clean health certificates on each bull allow them to be shipped into any state or country.

We will, as usual, be glad to help in taking care of your shipments after your purchases have been made, and in this respect Omaha again offers the finest in both truck and rail transportation. So do plan, now, to be in Omaha on February 10th to do your bull buying — it's the place you will get the most for your money this year.

SOUVENIR'S RESEARCH 3d — Here is probably the best herd bull prospect we have offered for sale in several years — thick, meaty, well balanced, with two good ends, and legs to carry him. We have used a number of bulls from this family, The Elvira Rose, in the past 15 years in our own herd and must give them a lot of credit for the uniformity, type, fleshiness of our own breeding herd. Here is a double-bred one, with some new blood through his sire. He should sire a great lot of calves. We have used him on several of our own females.

**STANDARD GUARANTEE  
OF  
AMERICAN SHORTHORN  
BREEDERS ASSOCIATION**

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.

2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.

4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

5. All animals catalogued have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.

6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.

7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All prospective buyers should check health requirements of their states.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bangs Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.
